## DETAILED ACTION

### *Amendment*

1. Acknowledgment is made of Amendment filed June 18, 2008. Claims 1-4 are canceled. Claim 9 is added. Claims 5-9 are pending.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. **Claims 5-9** are rejected under 35 U.S.C. 102(b) as being anticipated by *Arcelik* (WO 02/14593).
4. Regarding claim 5, Arcelik discloses a laundry appliance comprising a housing 8 including a stamped section 12 recessed relative to a front of the housing circumferentially surrounding a loading opening 23 to a rotatably mounted drum of the appliance; a door 7 disposed on the front of the housing for closing the loading opening, an edge of the door and a surrounding edge of the stamped section forming a gap area therebetween when the door is in a closed position; and an illumination device (collectively elements 15 and 11) disposed in the stamped section so as to be concealed behind the door when the door is in the closed position, light of the illumination device being reflected at an edge surface of the stamped section and a

surface of the door edge so as to provide an illuminating ring visible at the front of the housing (see Figures 1 and 9, and pages 3-10).

5. Regarding claim 6, the illumination device in Arcelik includes a light source 15 disposed in an area of a hinge 6 of the door; and an optical waveguide 11 having a light output surface at periphery thereof (see Figures 7 and 9).

6. Regarding claim 7, the optical waveguide 11 in Arcelik includes a light output surface configured to provide a light-conductive connection with the light source 15 in the area of the hinge of the door (see Figures 7 and 9).

7. Regarding claim 8, the illumination device in Arcelik includes a diffuser 11 and a plurality of LED's 15 configured to back-light the diffuser, the LEDs being circumferentially spaced at an edge of the front of the loading opening (see Figures 7 and 9).

8. Regarding claim 9, the illumination device in Arcelik includes an optical waveguide 11 disposed in the stamped section of the housing (see Figure 9).

### ***Response to Arguments***

9. Applicant's arguments filed June 18, 2008 with respect to the rejection of the claims in the previous Office Action have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground of rejection is made in view of *Arcelik* (WO 02/14593).
